

## New Functionality: VSC Payer Enrollment Details

The Vitera Support Center (VSC) now has made it easier to add payers and get paid faster. The new Payer Enrollment Detail button will instantly give practices payer-specific instructions on the enrollment needs of a particular payer.

“Our new Payer Enrollment Detail button is a great tool for practices in need of direction for setting up payers,” says Donnie Strickland, technical trainer. “In the event that a customer has to re-register or re-enroll a payer, or add a new practice, they no longer have to request payer-specific instructions. Now, they can select the payer and with one click, get customized directions for enrolling with that payer.”

This new button is available in the VSC's My Services and Accounts tabs, above the list of current payers. All customers using electronic data interchange (EDI) services can use this enhancement now.

On the **Accounts** view for Client record types and under the **My Services** view, we have added a new radio button to the Company Payers and Registered Payers views that allows you to generate **Payer Enrollment Details**.
